Tallinn, Estonia

SUMMARY

Data analyst with hands-on experience in SQL, Python, and data visualization.

Completed a 10-week Data Analytics Career Accelerator (DACA), where I built an automated RFM segmentation system and interactive dashboards for UrbanStyle.

Seeking a junior data analyst role to apply SQL, Python, and Power BI to deliver measurable business results.

TECHNICAL SKILLS

- Programming: SQL (PostgreSQL), Python (Pandas, NumPy, Plotly)
- Data Analysis: Data cleaning, RFM segmentation, exploratory data analysis (EDA)
- Visualization: Power BI (DAX, Power Query), Plotly
- Tools: Supabase, GitHub, Jupyter, VS Code
- Automation: ETL pipelines, GitHub Actions

BUSINESS & SOFT SKILLS

Data storytelling, KPI tracking, stakeholder communication, problem-solving, attention to detail

EXPERIENCE

Junior Data Analyst (Consultant) | UrbanStyle.ltd | June – August 2026

- Analyzed 10,000+ sales records with SQL and identified a VIP customer segment.
- Built an automated RFM segmentation pipeline (Python + Supabase), reducing manual work by 4 hours per week.
- Designed an interactive sales dashboard (Power BI/Plotly) that improved decision-making speed.
- Optimized inventory data, reducing overstock by 18% (€18,000 annual savings).

Technologies: SQL, Python (Pandas, Plotly), Power BI, Supabase, GitHub Actions

PROJECTS

GitHub: github.com/dmitri-postolaki/-daca-portfolio

1. Automated Customer Segmentation Pipeline Python, Supabase API, GitHub Actions, RFM
 - Segmented customers, identified the VIP group, and automated weekly data refresh.
2. Sales Data Dashboard SQL, Power BI / Plotly
 - Visualized sales data with interactive filters for self-service reporting.
3. SQL-based Data Cleaning PostgreSQL
 - Cleaned 10,000+ records, removed duplicates, and improved data accuracy from 87% to 99.8%.

EDUCATION

Data Analytics Career Accelerator (DACA) | 2026
Ettevõtluskeskus OÜ, Tallinn

10-week intensive program (SQL, Python, Power BI, automation). Capstone project:
UrbanStyle case study.
